

## Bayou State Corvette Club – May 2020 Newsletter

Keep safe,  
Keep in touch,  
Keep looking for tomorrow,  
We will meet again.

**May Meeting, May 21, 2020**  
Eric is considering dining locations  
or maybe ZOOM conferencing.  
Stay tuned.

### A note from the President of the BSCC

Hello Corvette Lovers, here we are in May!

It looks like our State will be opening up very soon. I am not sure, but I think it is possible that we will meet in May. I can't express how glad I am if we can get back to some normalcy. Some of our members have already started to get back into the stream of things. I've seen on facebook a few cruises here and there. One cruise ended up at Sonic for a bite to eat. Sonic is perfectly suited for physical distancing. By the way, I think "physical" distancing is a better descriptor than "social" because we need to keep the social part of our lives as active as possible.

As the days and weeks play out, we should learn more about what we can and can't do as far as meeting for dinner somewhere to hold our monthly meetings. I will need to reach out and touch base with the various restaurants that I set up earlier in the year for our meetings. It is possible that some restaurants will choose to open at different times, reduced schedules or even on alternate days. I will get back to you as soon as I hear something. Otherwise, I will send out another letter during the month. I am thinking about using ZOOM conferencing to hold our next meeting if we cannot actually meet in person.

Let us talk about what we really like to discuss...Corvettes. What have you heard or learned about the 2020 Vettes? Have any of our members purchased or sold a Corvette lately? We want to know about it in the BSCC. I can speak for the whole group, whether it has zero miles or 100,000 miles on it, our members are interested and excited for you. Besides, if you want to sell your Vette, you may want to make it public to our club first, someone may want it right here in the club.

In the April Newsletter I requested you, our members, to reach out to me. I did this because I am sincerely interested in what is going on in your life. I want to know; how you are holding up, if you are working at home or away from home, what you are doing to keep your sanity

I heard from Larry Chapman and Scotty Quebedeaux recently. We caught up a bit and visited for a while. If you prefer, you can email me like Charley Lourivere did. Charley even sent me photos of a Corvette project he was working on. I am looking forward to seeing that car on the road. Make sure you use this email; [BSCCPrez@gmail.com](mailto:BSCCPrez@gmail.com)

I almost forgot to say that Gizell and I are doing fine. We are both keeping busy by working from home. Gizell is still going into the office two days/wk to get her work done. I am running my crews using the phone, email, facetime, and a lot of photos. Other than that, we are trying to keep up with our 10 acres. As we enter the heart of mowing season, with these cool nights, the grass on our property has slowed down a bit which definitely pleases me. My Vette was in the shop last week, getting a new harmonic balancer. It appears that this is a problem with 2012 LS3's where the harmonic balancer may come apart if you run your car frequently at high RPM's. Oh well.

Corvettes are #1  
Eric Simmons  
BSCC President 2020

## May Birthdays

Bryan Aucoin	Drew Bertrand	ThomasBrumbaugh
Dwayne Dailey	Thomas Gossen	Tim Guilliams
David Kreswell	Pamela Mayeaux	Dawn Morgan
